Maplewood Village is located along the commercial center of Maplewood Avenue and is a fine example of a small-scale, early-to-mid-20th century commercial district with mostly one-, two-, and three-story vernacular commercial buildings. The village retains much of its historic scale, massing, and character, even though many of the buildings have been adapted to meet the changing commercial needs of the community.

- Services: Intensive-Level Architectural Survey and Report for 276 residential and commercial properties in the center of Maplewood, National Registration Nomination for Maplewood Village Historic District.
- Total Project Costs: $42,000
